Made in  
France

**Maximum weight  
loading 800 lbs / level \***

\*Further details inside

### Storage system for dry goods, kitchen, laundry and dishwashing area

- Quick assembly and mounting
- Simple configuration
- Extremely stable

## 6622/R

## Modular shelving system with solid polymer removable shelf inserts

### Static modular shelving system

Assembly is through conic metal clamps manufactured in anodized aluminium ensuring extremely stable units.

FERMOD 6622/R can be installed in singular units or combinations allowing a number of configurations including « L », « U », « T », and « + » layouts.

This system allows one person to carry out the installation quickly and efficiently without the need of tools.

Each polymer insert is dishwasher safe (+ 212°F / +100°C).

A mix of FERMOD 6622/R and 6611/R shelves is possible.

FERMOD 6622/R offers the solutions in space management ensuring maximum use of available storage area through combinations of its standards units. We offer the facility for self design through our FERMOD layout and costing program available on request.

- 4 heights of uprights : 57, 66, 71, 83 in.\*  
(1465, 1685, 1800 and 2100 mm)
- 2 depths : 18, 22 in.\*  
(460, 560 mm)
- 10 lengths : 26, 31, 35, 38, 42, 47, 52, 59, 64, 68 in.\*  
(660, 780, 900, 960, 1080, 1200, 1320, 1500, 1620, 1740 mm)

Tool free assembly

Corner angle

Dishwasher safe

### Loading per Shelf Level (for evenly distributed load)

Bay Length (in.*)	26	31	35	38	42	47	52	59	64	68
mm	660	780	900	960	1080	1200	1320	1500	1620	1740
Fermod 6622/R (lbs)	800	800	800	800	800	800	600	600	600	600
